SUPPORT

etiquetasdigitais.pt

etiquetas digitais

In this catalogue, you will find the widest assortment of supports designed specifically for the "NEWTON ESL SOLUM". All brackets are specifically designed for being applied with each model of electronic label. Most have inserts that, in combination with our accessories, allow each label model to be displayed in different positions so that they adapt to any type of furniture or surface, adapting to any situation that you need in your business. In cases where these supports come into contact with food, the materials with which they have been manufactured are especially made for food use. If you do not find the product you need, contact us and we will develop it in the shortest possible time.
